DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,5-10,12 &16-17 are rejected under 35 U.S.C. 102(b) as being anticipated by GB 2066441A. The Patent Application GB 2066441 A discloses an automatic vending machine with a plurality of thermally insulated article-storage chambers for vending articles to be heated and/or to be cooled. The said prior art patent application comprises: a machine cabinet (10), a plurality of article chambers (12) situated horizontally and vertically, heating element (16), a cooling chamber (20) with a blower means, a refrigeration system (consisting of an evaporator, a condenser & compressor – see page 4, column 2), shutter means and furthermore ports for providing venting with said article chambers and having an inlet and outlet port .

Allowable Subject Matter

Claims 18-24 are allowed over the prior art of record.

Claims 3,4,11 & 13-15 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
